The Next Generation NED Network

The Next Generation NED Network is aimed at a select group of senior executives of leading businesses who are considering becoming non-executive directors (NEDs) in the private, public or not-for-profit sector, as well as existing NEDs who wish to keep up to speed with the latest issues affecting boardrooms today.

Given the challenging global economic and financial environment, demand for high quality NEDs is increasing

Initiated by Simmons & Simmons, the Network, which currently has over 1,000 members, brings together leading service providers with experienced directors from industry, finance and a wide range of other sectors, who are looking to develop their careers.

‘Moving Up’, ‘Moving Across’ as a NED

People seeking a portfolio of NED roles often want to broaden the types of NED roles they take on so as to bring a diversity of experience and perspective to their career. And, obtaining a NED role in one sector, e.g. in the public or not-for-profit sector, may help lead to a role as a listed company NED, or vice versa (moving across) or to obtain more senior NED roles in the same or another sector (moving up).

About the Network

The Network is an informal, but structured, collaboration between professional services organisations with expertise in a range of areas from recruitment through to advising on legal, accounting, communications, commercial and other responsibilities.

The Network runs a regular series of interactive talks on a range of governance and compliance issues. Not only do the attendees benefit from insight with breadth and depth but they also have the chance to network with like-minded peers on a regular basis.

There is no cost for participating in the Network. It is open to both those actively seeking NED roles and those who are already NEDs but are seeking more guidance.

Importantly, we hope that participation in the Network may lead some who may not otherwise have committed to a NED role actively to pursue things further. In doing this, we hope the Network will play a role in developing the next generation of NEDs.

World-class partner organisations

The Network is actively supported and run by seven world-class organisations:

- Simmons & Simmons, a leading international law firm
- KPMG, a global provider of audit, tax and risk advisory services
- Barclays, the global financial services provider
- Brunswick, a leading corporate relations and communications consultancy
- Odgers Berndtson, leaders in executive search
- Independent Audit, a leading governance consultancy firm
- The Leadership Institute, London Business School
- The Institute of Chartered Secretaries and Administrators (ICSA), a leading global authority on corporate governance.

Website

We've got a new website where you can find more information about the Network on the NED and you can access it [here](#). This includes our data protection policy about Network members' personal information. Details of recent events including videos and presentations can be found by logging onto the secure members' area of the website [here](#).

Personal data relating to members of the Network is held by us, Simmons & Simmons LLP, as administrator of the Network. We collect information consisting of a member's name, address and contact details. Members' personal data is used for the purposes of arranging Network events and administering the Network, and may be transferred to people based in the United Kingdom of other partner organisations for these purposes. If we wish to collect other types of personal information from Network members or use it for other purposes, we will first ask for members' consent. We will treat all Network members' personal information securely, fairly and lawfully."

The Next generation NED network is an informal collaboration between leading professional service providers. Its purpose is to provide clear insight into the role of a NED, the opportunities available and how to seize them.
